## System Requirements

In order to use the new SRTP Online system you will need to run the following software on your PC:

Operating System:

Windows 2000 or Windows XP SP2 or higher

Internet Browser:

Internet Explorer 7 or higher

Firefox 2.0 or higher

Safari 3 or higher

Google Chrome 3.5 or higher.

Screen Resolution 800x600 or higher

Broadband Internet connection 512kB or greater

**It is also strongly advised that any PC's that access the Internet are protected by Anti-Virus software and a Firewall solution.**

If you have any problems when using the system please contact Wendy Clayton ([wendy@leaftc.com](mailto:wendy@leaftc.com)) for advice.

## Introduction

For the purposes of this document, the SRTP Returns self-assessment form will be referred to as the “Questionnaire”.

The new SRTP Online system will provide a better service to Suppliers as the Questionnaire can be accessed via the web by several people within the Supplier company – although not at the same time.

In addition previous year’s Questionnaires, action plans and road map levels will be available online, together with the last Review results (where appropriate).

The Online Questionnaire design has been based on the previous Excel based system so that Suppliers who used the Excel system will already be familiar with the layout/functionality in terms of questions and answers.

### Please Note:

Individual Suppliers will only have access to their own SRTP Questionnaire.

Supplier Group Co-ordinators will have access to their own Group of Supplier’s Questionnaires.

Clients will have a login that gives them access to current and previous year’s Questionnaire data for those Suppliers who are supplying to them in the current year.

**Clients will be able to “view” the data but will not be able to make any amendments.**

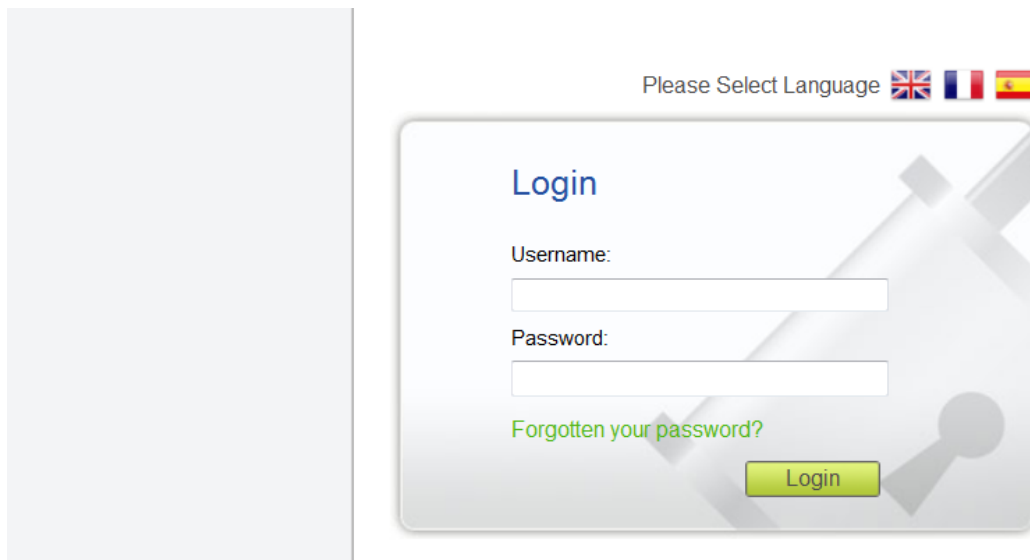

**NB: The deadline for submissions is 30<sup>th</sup> November current year.**

## Logging Into the System

Each Supplier will be issued with a link to the Online system and a unique Username and Password (this will be sent to them via email).

Once we have issued the initial Passwords we will be recommending that Users change them for security purposes (see page 6 for details of how to change your password).

The link will take you to the Login screen:

From here you can:

Select the preferred language (English, French or Spanish)

Enter your Username

Enter your Password – this is case sensitive

**Please Note:** If a User is “inactive” for a period of 4 hours they will automatically be logged out of the system.

This is for security reasons.

If this happens, your data **WILL** be saved.

When you have logged into the system you will be taken to your “Home Page”.

The “Home Page” will display the Supplier name and primary contact details in the top left hand corner.

Suppliers can change the primary contact details by clicking on the “manage contact” link.

Suppliers can change their password by clicking on the “change password” link.

A running countdown of “days to go” until that year’s deadline is reached is also displayed.

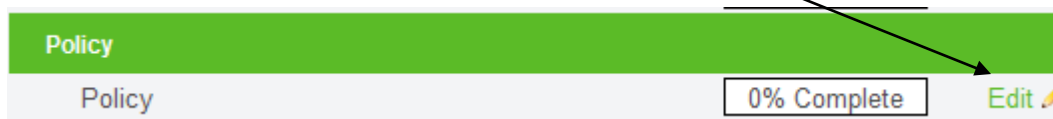

The screenshot displays the SRTP Online System interface for a supplier. On the left, a sidebar contains navigation links: 'Details' (with sub-links for 'Manage Contact' and 'Change Password'), 'Data' (with sub-links for '2012 - Current', '2011', '2010', '2009', '5 Year Summary', and 'Trend Graph - Percentage Scores'). The main content area shows the supplier's details: 'Supplier's Name: WENDYDEMO', 'Parent Group: DEMOCLIENT', and 'Contact Name: Ms Wendy Clayton'. A prominent message states 'Due date 01 Dec 2012 - 115 days to go!'. Below this, a table lists various sections and their completion status, each with an 'Edit' link. The sections include: 'Supplier' (Information, Information (part 2), Declaration), 'A Policy' (1 Policy, 2 Additional Policies), 'B Processing' (1 Working Environment, 2 Impact on Community, 3 Factory Safety, 4 Fire Prevention & Evacuation, 5 Medical Facilities, First Aid & Community Support, 6 Site Security, 7 Vehicles and Drivers, 8 In Factory NTRM, 9 Carbon / Climate Change Measures - Factory), 'C Agronomy: Field Management' (1 Implementation of Farmer Training, 2 Seed Selection and Variety Performance, 3 Integrated Pest Management, 4 Soil and Water Conservation, 5 On Farm NTRM, 6 Farm Safety, 7 Crop Husbandry), 'D Agronomy: Natural Resources Management' (1 Wood usage, 2 Pollution control, 3 Biodiversity, 4 Carbon/ Climate Change Measures - Farms), 'E Social Development' (1 Children on Farms, 2 Farmers Margins, 3 Farm Labour: Codes and conventions, 4 Supplier Workforce: Equal Opportunities), and 'Comments' (General Comments, LeafTc Action Plan Feedback Comments). At the bottom, there are links to 'Print Questionnaire', 'View Summary', 'View Action Plan', and 'View Summary Graph - Current Year Percentage Scores'.

## Getting Into the Questionnaire

Each section of the Questionnaire is displayed on the “Home Page” and can be accessed simply by clicking the link marked “Edit”.

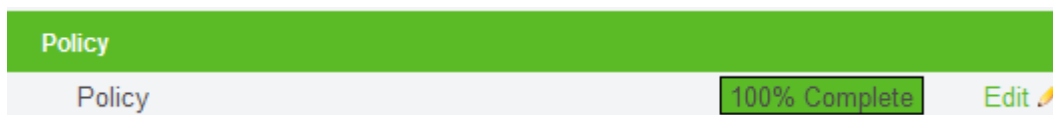

As data is entered into each section, the “% Complete” indicator will be updated.

This will allow Users to clearly see which sections are complete and which sections are outstanding, eg from the image below you can see that the Policy section has been started but is only 60% complete.

When a section is 100% Complete the indicator will turn green, eg

Once a section is 100% Complete you can still go into it to make amendments if necessary.

You should work your way through each section to complete the Questionnaire.

You can “Save & Exit” the system at any time and return at your leisure to complete your data entry.

**NOTE: You will not be able to submit your data until every section (excluding the “General Comments”) is 100% Complete.**

## Navigating around the Questionnaire

Once you have entered a section by clicking the link marked “Edit” from the “Home Page” (as described above), each screen within that section contains buttons that will enable you to navigate around the system:

**Previous Section** – takes you backwards through the sections (also saves your data)

**Next Section** – takes you forwards through the sections (also saves your data)

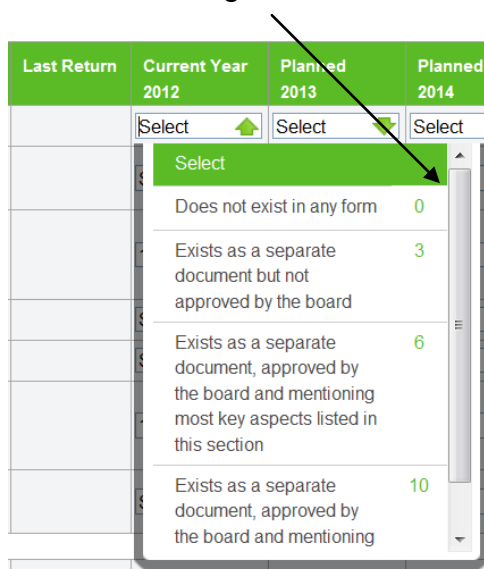

**Save & Exit** – saves your data and takes you back to the “Home Page” (it does not log you out of the system)

**Log Off** – logs you out of the system completely (also saves your data). A warning message is displayed in case you select this option in error. Normally this option would be taken from the “Home Page” rather than from within a section.

### **Drop-down Menus**

Throughout the system you will see drop-down menus which will enable you to select the appropriate score for each question in the Questionnaire.

Some of these menus will have a significant number of choices to select from. It is important to understand that you can move up and down these menus whenever a scroll-bar is shown, eg:

## Form Design

### Column Headings:

Topic	Sub-topic	Last Return	Current Year 2010	Planned 2011	Planned 2012	Last review
1. Safety Manager 	Full time professional Safety Manager 		Select 	Select 	Select 	

The “Current Year”, and “Planned” column headings will automatically be set by the system.

The “Last Return” column will be blank if this is your first year of data entry, but if you submitted data last year then the Scores will be shown for information only.

For subsequent years, the “Last Return” column will automatically be populated with your previous year’s Scores.

This data is for information only and cannot be amended.

The “Last Review” column will also automatically be populated if you have received an On-Site Review since January 2010.

### Information and Guidance Notes

Interactive guidance notes are built into the system as follows:

Topic	Sub-topic	Last Return	Current Year 2010	Planned 2011	Planned 2012	Last review
1. Safety Manager 	Full time professional Safety Manager 		Select 	Select 	Select 	

The (i) symbol indicates that there is guidance related to that topic/sub-topic.

Simply position your mouse over the (i) symbol and the information will automatically be displayed, eg:

Topic	Sub-topic	Last Return	Current Year 2010	Planned 2011	Planned 2012	Last review
1. Safety Manager 	Full time professional Safety Manager 		Select 	Select 	Select 	

Where circumstances permit, it is better to have a fully trained safety manager.

In some cases a question mark symbol (?) will be shown. This indicates that there is extensive guidance information available.

## Processing: Factory Safety ?

[Previous Section](#)
[Next Section](#)
[Save & Exit](#)

Topic	Sub-topic	Last Return	Current Year 2010	Planned 2011	Planned 2012	Last review
1. Safety Manager <span style="float: right; font-size: 0.8em;">(i)</span>	Full time professional Safety Manager <span style="float: right; font-size: 0.8em;">(i)</span>		<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Select <span style="float: right;">▼</span></div>	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Select <span style="float: right;">▼</span></div>	<div style="border: 1px solid #ccc; padding: 2px; display: inline-block;">Select <span style="float: right;">▼</span></div>	

In order to view the guidance information, hover your mouse over the (?) symbol and click once. A full screen of information will then be displayed. Use the scroll bar on the right hand side of the Guidance Notes to move up and down the page of information.

**Processing: Factory Safety**

### GUIDANCE NOTES

The most fundamentally important activity, which should drive all others, is conducting a formal documented thorough Risk Survey.

There are a number of approaches to the risk survey but most commonly they address the types of accident that could occur doing a particular job or working in a particular area, the probability of the accident occurring (usually on a five-point scale) and the severity, should the accident occur (also on a five-point scale). Probability and severity scores are usually multiplied in order to give an index which can be used to prioritise remedial action. Note that this is not the only way that the risk survey can be reported/documented but it is the most common format that we encounter.

Other items that need to be addressed include the following:

- 1. Safety audits conducted by external personnel (either consultants, NGOs, or your own staff from a different location) can be very valuable since they are likely to spot items that local management may easily miss in the course of everyday activities.
- 2. Connected with the above, a documented weekly survey of the factory should be conducted by the safety officer or his appointee.
- 3. All accidents (lost time, minor or near misses) should be recorded and analysed in order to develop preventative actions.

To close the Guidance Notes, click the “x” shown in the top right hand corner of the page.

**Guidance notes can be printed by either:**

Holding the left mouse button and dragging to select the text

Clicking the right mouse button and selecting “print”

Or

Holding the left mouse button and dragging to select the text  
Clicking the right mouse button and selecting “copy”  
Opening a Word document  
Clicking the right mouse button and selecting “paste”  
Print the Word document as normal

## Entering Your Scores

You are required to complete every question on every section – however you do not need to complete these all at once, you can save and return at any point.

For each question, you must enter an appropriate score into the columns shown under the “Current Year” and the “Planned” columns for next year and the year after.

**Please Note:** The system will save data in real time, therefore as soon as you enter a score it will be saved. If you are logged out of the system for any reason the data that has been entered up to that point **WILL** be saved.

In order to decide what score is appropriate for your operation, position your mouse over the question heading/sub-heading and view the guidance information.

Then, position your mouse onto the first of the data entry boxes marked “Select” and click the green arrow

Topic	Sub-topic	Last Return	Current Year 2010	Planned 2011	Planned 2012	Last review
1. Safety Manager 	Full time professional Safety Manager 		<div>Select</div> <div><div>Select</div><div>No individual tasked with managing safety on site0</div><div>Member of management team is given additional responsibility to manage safety issues3</div><div>Member of management team is given additional responsibility to manage safety issues and receives appropriate training6</div><div></div><div></div><div></div></div>	Select 	Select 	
2. Risk Survey (Factory Safety) 	a. Survey & remedial actions		<div>Select</div> <div><div>Select</div><div>No individual tasked with managing safety on site0</div><div>Member of management team is given additional responsibility to manage safety issues3</div><div>Member of management team is given additional responsibility to manage safety issues and receives appropriate training6</div><div></div><div></div><div></div></div>			
	b. Audits 					
3. Awareness (Factory Safety) 	a. Training					
	b. Awareness posters					
4. Guards and Protection 	a. Mechanical Guards					
	b. Interlocks					
5. PPE 	a. Issue of					

The scores available for that question (and explanatory text) will then be displayed in a drop-down menu.

Select your score from the drop down list and it will automatically populate the Questionnaire, eg if Score 3 was selected from the above then the result would look like this:

Topic	Sub-topic	Last Return	Current Year 2010	Planned 2011	Planned 2012	Last review
1. Safety Manager 	Full time professional Safety Manager 		3 	Select 	Select 	

Use the scroll bar shown at the right hand side of the drop-down menu to move up and down the list of options.

Continue in the same way in order to answer all questions within a section.

**Scores must be entered for all 3 years (Current (this year), Planned (next year) and Planned (2 years ahead)).**

**Note:** If you click “Select” by mistake or select the wrong score, simply click in a blank area of the form and the drop-down scores will be hidden again.

### **Comments Boxes**

At the end of each section there will be a “Comments Box”. This is a free-format text box and can be used to enter any data (**in English**) that the User may wish to use to illustrate a particular point within the section, and/or enter a query related to the section.

Total for this section		0	0	0	
SRTP Index		0%	0%	0%	

### **Comments**

Comments must be in English

Previous Section

Next Section

Save & Exit

The Comments are **NOT** mandatory and therefore they can be left blank.

## Agronomy – Natural Resources Management

We have developed this Category to try and capture as much information from Suppliers as possible relating to:

Wood Usage  
Pollution Control  
Biodiversity  
Carbon/Climate Change Measures - Farms

It is important that Users of the system understand how the “Wood Usage” section works.

A set of initial questions are displayed, as follows:

### D. Agronomy: Natural Resources Management: 1. Wood usage

Previous Section Next Section Save & Exit

<b>Curing: Energy Conservation &amp; Source Management</b>	<p><b>Please indicate percentage production of each crop type purchased by your company:</b></p> <p style="text-align: right;">%</p> <p>FCV <input style="width: 100px;" type="text"/></p> <p>Dark Fire Cured <input style="width: 100px;" type="text"/></p> <p>Dark Air Cured <input style="width: 100px;" type="text"/></p> <p>Burley <input style="width: 100px;" type="text"/></p> <p>Oriental <input style="width: 100px;" type="text"/></p> <p>Sun Cured <input style="width: 100px;" type="text"/></p> <p>Other (please explain in the comment box) <input style="width: 100px;" type="text"/></p> <p>Total must = 100% <span style="float: right; color: red;">0</span></p>
--	---

<b>Barn Construction &amp; Source Management</b>	<p><b>Please indicate barn construction material:</b></p> <p style="text-align: right;">%</p> <p>Wood frame <input style="width: 100px;" type="text"/></p> <p>Wood tiers only <input style="width: 100px;" type="text"/></p> <p>Brick <input style="width: 100px;" type="text"/></p> <p>Metal frame <input style="width: 100px;" type="text"/></p> <p>Other (please explain in the comment box) <input style="width: 100px;" type="text"/></p> <p>Total must = 100% <span style="float: right; color: red;">0</span></p>
--	--

You must enter the appropriate numeric value into the relevant boxes to indicate how your operation works.

Depending upon your responses, further screens may be displayed, eg if you indicate FCV or Dark Air Cured is used in Curing the following screen will be displayed:

	<p><b>If curing please indicate type of fuel:</b></p> <p>Wood <input type="text"/></p> <p>LPG / Natural gas <input type="text"/></p> <p>Coal <input type="text"/></p> <p>Electricity <input type="text"/></p> <p>Natural product (e.g. Rice Husk, Staw, etc.) <input type="text"/></p> <p>Other (please explain in the comment box) <input type="text"/></p> <p>Total must = 100% <span style="color: red;">0</span></p>
--	--

In all cases the Totals must = 100%.

**The system will not let you complete your submission if the total is less than 100%.**

In addition to the above questions, the 2<sup>nd</sup> half of the section also needs a response.

However, please note that if fuel is NOT used for curing (eg only Burley, Air-Cured and/or Oriental tobaccos are grown, and no Flue-Cured or Fire-Cured) then you should score 10 points for all the questions in the 2<sup>nd</sup> half of the section, as indicated by the message shown in red:

Topic	Sub-topic	Last Return	Current Year 2012	Planned 2013	Planned 2014	Last review
1. Risk Assessment ?	i		Select ▼	Select ▼	Select ▼	
If fuel is NOT used for curing (eg Burley, Air-Cured and Oriental tobaccos) please score 10 for all the questions below:						
2. Wood usage - Curing ?	a. Sustainability i	0	Select ▼	Select ▼	Select ▼	
	b. Chain of custody i	0	Select ▼	Select ▼	Select ▼	

## Action Plans

The system will generate Action Plans only if the scores progress or reduce from one year to the next.

You can view your plans by selecting the “View Action Plan” link at the bottom of your Home Page:

» [Print Questionnaire](#)      » [View Summary](#)      » [View Action Plan](#)  
 » [View Summary Graph - Current Year Percentage Scores](#)

[Complete Submission](#)

The following screen will then be displayed:

Agronomy: Natural Resources Management			
Wood usage		Planned 2013	Planned 2014
Risk Assessment		No change is planned this year	Documented assessment, reviewed as required, with planned remedial action for all relevant potential risks, prioritised by probability and severity
Wood usage - Curing	Sustainability	No change is planned this year	100% sustainability achieved through fast growing, energy efficient forests grown as a crop
Wood usage - Curing	Chain of custody	No change is planned this year	Data to demonstrate clear chain of custody
Wood usage - Curing	Native species	No change is planned this year	A mix of native and exotic species grown. Clear documentary evidence indicating why it is not viable to grow all native species
Wood usage - Curing	Amenity value	No change is planned this year	Understanding of environmental or landscape benefit of trees rather than just their commercial value as a crop. Plan to address issue fully developed and implemented recently
Wood usage - Curing	Destruction of Forests	No change is planned this year	Less than 5% of farmers use natural forests for fuel. Seed banks exist for regeneration
Wood usage - Curing	Engagement with other stakeholders	No change is planned this year	Documented engagement with external stakeholders

[Back](#)

When you have finished viewing the information, use the button marked “Back” (located at the bottom of the screen) to go back to the “Home Page”.

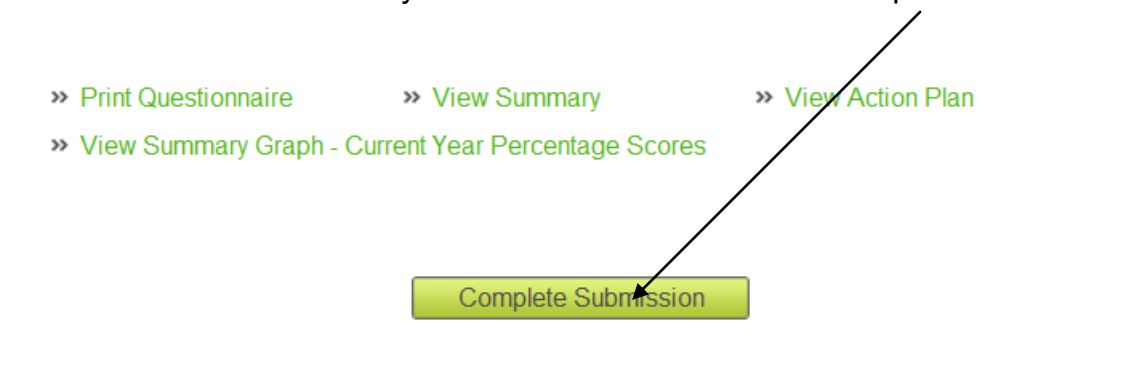

## Completing Your Submission

### Please Note:

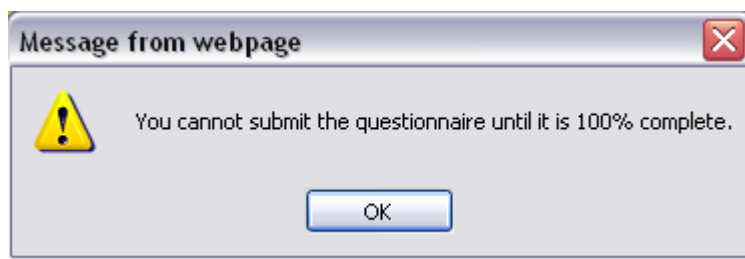

- You can only complete the submission of your Questionnaire when **ALL** questions in **ALL** sections (excluding the Comments section) have been answered.
- Once you submit your data you cannot amend it. However if you submit in error, you must notify Wendy Clayton via email ([wendy@leaftc.com](mailto:wendy@leaftc.com)) and she will be able to re-set the data so that you can continue to work on it.

**When you are ready to complete your submission, go to the “Home Page”.**

At the bottom of the screen you will see a button marked “Complete Submission”.

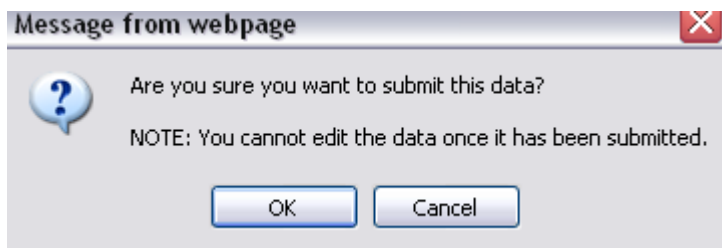

On pressing this button the system will check to make sure that all questions have been answered. If any have been left blank, the system will issue the following message:

Click “OK” and then view the “Home Page” to see which section(s) is incomplete.

You cannot submit the Questionnaire until all Sections are 100% complete (excluding the Comments section).

If all questions have been answered then the system will issue the following message:

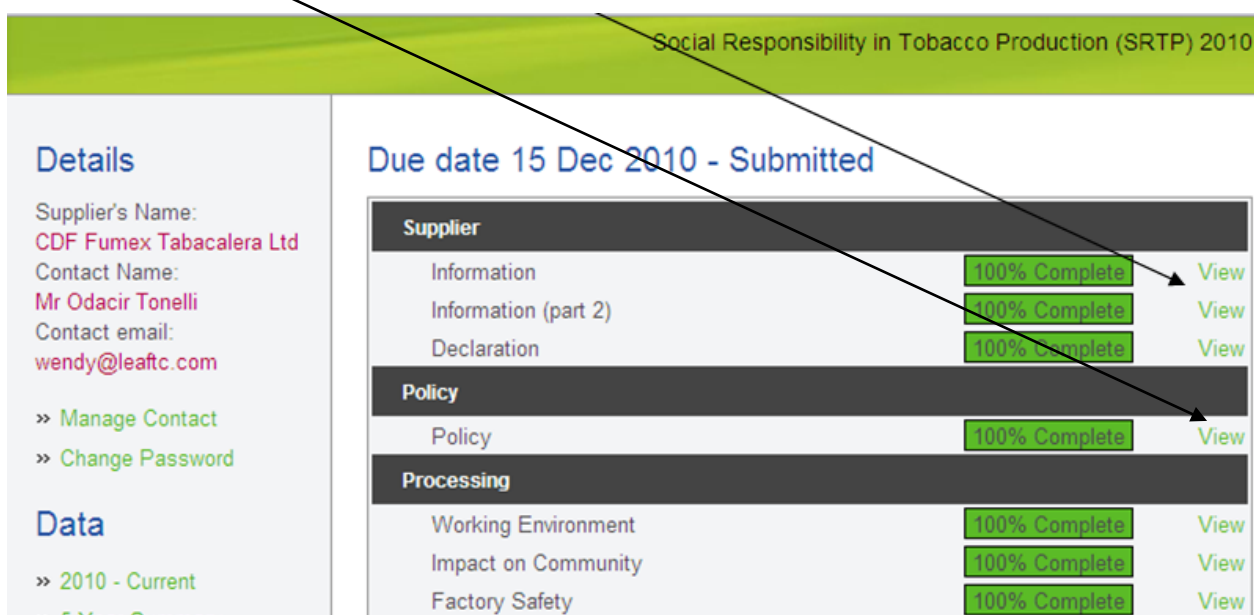

If you wish to continue click “OK”, otherwise click “Cancel”.

By clicking “OK” to continue you will then submit your data.

The “Home Page” will indicate that your data has been “Submitted”.

The Section headings will be shown in black, and the “Edit” facility will be replaced by a “View” facility.

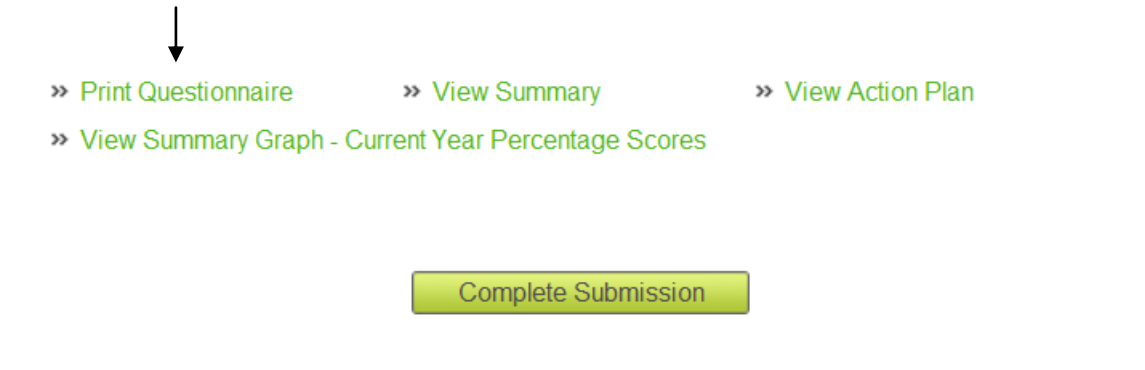

Supplier		
Information	100% Complete	View
Information (part 2)	100% Complete	View
Declaration	100% Complete	View
Policy		
Policy	100% Complete	View
Processing		
Working Environment	100% Complete	View
Impact on Community	100% Complete	View
Factory Safety	100% Complete	View

LeafTc will have access to a “Status” report which will be run daily and this will indicate which Questionnaires are blank, in progress and submitted.

LeafTc will have access to a download program which will export the Questionnaire data into their local system(s) for analysis/review.

## Printing the Questionnaire (Printing Hard Copy)

The Questionnaire can be printed by using the “Print Questionnaire” button located at the bottom of the “Home Page”.

When this has been selected the following screen will appear, and it will allow you to either select sections/sub-sections of the Questionnaire (using the “Add” button), or the entire Questionnaire (using the “Add all” button), to be printed.

If you want to print the complete Questionnaire, select the “Add All” button as shown below.

### Print Questionnaire

Please select each sub section you want to print and click Add to move it to the Print Queue.

Once all sub sections required have been added to the Print Queue, please press the Print Button at the bottom of this page.

Available questionnaire sub sections:

Supplier: Information	Add
Supplier: Information (part 2)	
Supplier: Declaration	Add all
Policy: Policy	
Processing: Working Environment	
Processing: Impact on Community	
Processing: Factory Safety	
Processing: Fire Prevention & Evacuation	
Processing: Medical Facilities, First Aid & Community Support	
Processing: Site Security	

Sub sections to be printed:

	Remove
	Remove all
	Print
	Cancel

If you select this in error simply use the “Cancel” button to go back to the “Home Page”.

**Printing Sections/Sub-sections of the Questionnaire:**

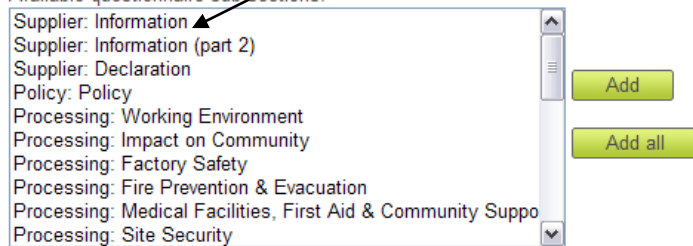

Using the first box that is displayed, click on the Section you require to print.

**Print Questionnaire**

Please select each sub section you want to print and click Add to move it to the Print Queue.

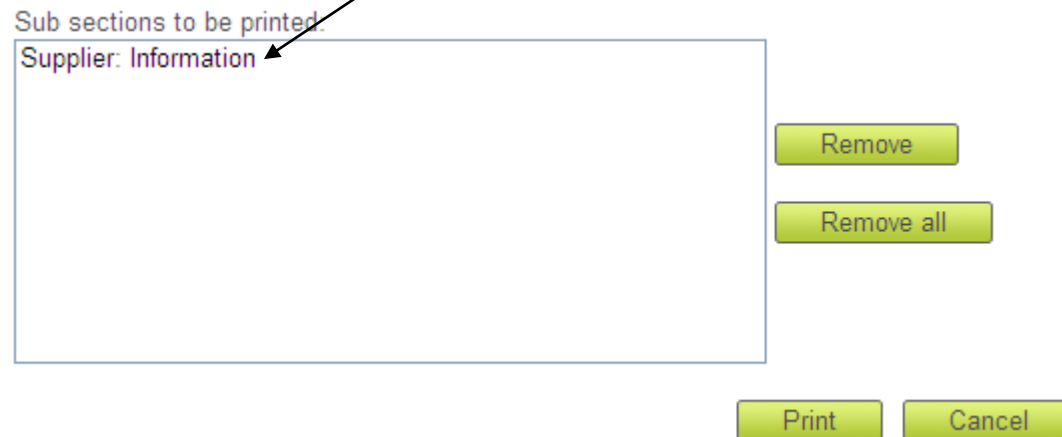

Once all sub sections required have been added to the Print Queue, please press the Print Button at the bottom of this page.

Available questionnaire sub sections:

Click the “Add” button.

The Section that you have selected will then appear in the second box.

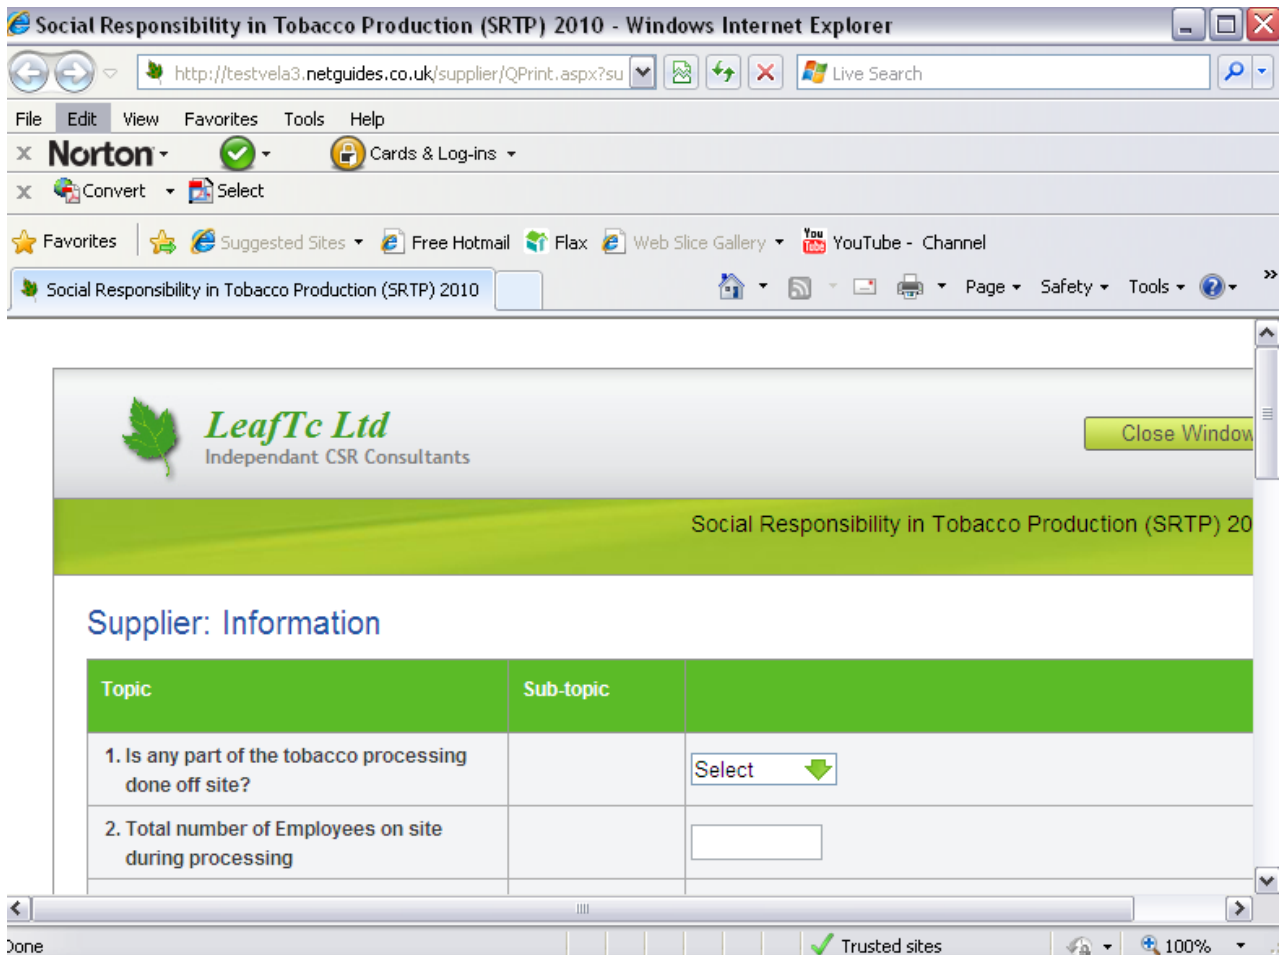

Continue until all required Sections have been selected.

If you select a Section in error, click it to select, and then click the “Remove” button.

Once you are happy with your selection click the “Print” button.

The Section(s) that you have selected will then be displayed in your normal Internet Browser screen, eg for Internet Explorer the following screen will be displayed:

Topic	Sub-topic	
1. Is any part of the tobacco processing done off site?		Select 
2. Total number of Employees on site during processing		<input type="text"/>

To print the Selection(s) use the browsers own print facility which can usually be found in the browser menu.

Follow the instructions on your screen to send the selection(s) to your designated printer.

## Summary Data, Graphs and Online Historical Data

There are several built-in reporting facilities. These are shown under the “Data” heading on the left hand side of the “Home Page”:

### Details
